Few professionals have more experience miking drums than Danny Seraphine of "Chicago." That's why Danny selected the Shure SM98 Miniature Condenser Mic with its revolutionary new supercardioid Polar Modifier to solve his toughest miking problems.*

The unique A98SPM Polar Modifier converts the SM98 pickup pattern from cardioid to supercardioid, giving you the flexibility of two mics in one to cover virtually any instrument miking situation. When used on drums, it eliminates bleed from adjacent drums and cymbals, and can handle exceptionally high SPL's.

Whether you've already made it, or you're still on the way up, choose the mics the great artists choose—Shure. Built to the highest standards of reliability and performance.

Rod Morgenstein

"Morgenstein offers a wealth of instructional material on such topics as versatility, ghost strokes, odd time, double bass and coming up with drum parts. The information is presented in a clear, organized format and Rod doesn't forget that drumming is supposed to be fun! If you need a shot of inspiration—this is one to see!"

Rick Mattingly
Modern Drummer Magazine

Lots of playing, "on screen" musical notation and special appearance by Steve Morse band bassist Jerry Peck. All levels.

Drumming Concepts

2 one-hour Audio Cassettes

DANNY GOTTLIEB

"These tapes are the closest thing to private lessons that I have yet encountered. I listened to them in the car and it was like having a friend sitting next to me discussing drums. There is a good balance between spoken word and playing. These tapes are crammed with ideas and concepts, and therefore stand up well to repeated listenings."

Richard Egar
Modern Drummer Magazine

Also the Rod Morgenstein

MASTER SESSION

Includes the following three sessions:

Grooving In Styles / Filling In The Holes

Old Time

Double Bass

Each session contains 2 one-hour cassettes and book.

Also sold individually.

"I sincerely recommend Rod's teaching program. It is full of valuable concepts skillfully demonstrated. I was listening to *Grooving In Styles* on a long drive from Montreal to Toronto and when I got home worked out two new patterns based on ideas gained from Rod's insights. All in all an excellent learning aid—well worth the price of admission!"

Alternative Energy Source

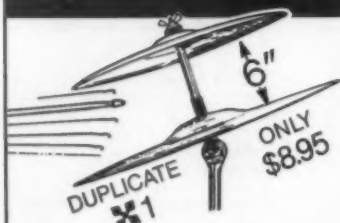

Carry a pair of Riff Rite Graphite drumsticks for those occasions when you need a little more power without putting out a lot more muscle. Besides being a great feeling, great sounding set of sticks that can last up to 8 times longer than wood, Riff Rite's space-age formula will give you an easier way to beat the energy crunch.

Used and endorsed by
 top professionals.
